

Soft PVC Products

Product: PKJ 5220

Application	Transparent Soft PVC Products
Type	Ca Zn
Typical Addition	2.0 - 3.0
Heat Loss (%)	≤2.0
Lubrication	★★
Form	Powder

Typical Formulation

Material	Transparent Soft PVC Products	
PVC SG-3	100	
DOP	50	
ESBO	3.0-5.0	
PKJ 5220	2.0-3.0	

Properties

PKJ 5220 is an CaZn based one pack stabilizer suitable for transparent soft PVC products. The application includes such products as transparent sheet, films and tubes etc. The product offers good transparency, stable initial color and color hold with better product physical property.

No lubrication component is added in PKJ 5220, customers can add the internal and external lubrication according to the actual processing requirements. However, it has to be careful with the lubrications that may affect the transparency of the finished product.

PKJ 5220 is conformed with the EU ROHS, REACH and other environmental standard.

All raw materials and every batch of one pack are tested to a high standard to ensure product consistency and meet the high quality demands of the customer. A quality assurance certificate can be provided for each product batch according to customer's request and supported by our ISO 9001:2008 Quality management system.

Package

Valve side paper/PE bag(25kg N.W) or plastic woven container sack. Period of quality guarantee is one year.

Storage

Stored in dry place, to avoid high temperature, keep away from acid, alkali and other corrosive substances.
